

Car Door Assist Device

Frequent ANV drivers are welcome to contact the office to request a device!

You may obtain a device from ANV or purchase your own; they are less than \$10 on Amazon

Car Door Assist Device

1. Insert the pointed metal end of the device into the U-shaped ring located in the frame of the vehicle door.
2. When getting into the vehicle, it is best to turn fully around, facing away from the vehicle with back to the seat, before reaching for the device and beginning to sit down.
3. Push down (don't pull up or at an angle) to lean on the device as you would an armrest on a chair, to facilitate getting into/out of the vehicle.
4. After use, the device can be easily stored in the door pocket, glove compartment, console or other convenient location.
